# Admin Portal

Module guide — what each section does, with a one-line example · October 10, 2026

| Module | What it does |
|---|---|
| **Admin Dashboard** | A platform-wide overview: total students, average scores, and recent activity at a glance.<br>*Example: Shows "142 students registered, average Aptitude score 68%" the moment staff log in.* |
| **Students** | View every registered student, search them, and activate or deactivate accounts.<br>*Example: Search "Kaveeshaa", review her module scores, and deactivate her account if she leaves the program.* |
| **Staff Members** | Manage who has staff or admin access to this portal — add or remove staff logins.<br>*Example: Add a new staff login for a placement coordinator with the "staff" role.* |
| **Question Bank** | Add, edit, and activate or deactivate questions across Aptitude, Technical, Coding, and Behavioural types — shown to students alongside the built-in question sets.<br>*Example: Add a new Easy coding question, "Count Digits in a Number", complete with its own test cases.* |
| **Evaluations** | Review every AI-scored interview answer students have submitted, with the full scoring breakdown and feedback.<br>*Example: See that a student scored 72/100 on "Tell me about a conflict", along with the AI's written feedback.* |
| **Analytics** | Platform-wide average scores per category, plus the most common weak areas across all students.<br>*Example: Shows "Average Coding Score: 61%" and flags Aptitude as the weakest category overall.* |
| **Skill Gaps** | Drills down into the most common weak areas to show exactly which students need extra help.<br>*Example: Click "Logical Reasoning" to see the names of the three students currently struggling with it.* |
| **Settings** | Configure how interviews and evaluations are scored and conducted, platform-wide.<br>*Example: Change the default number of mock interview questions from 5 to 7 for every student.* |
| **Alerts** | A live, automatically computed list of students who need attention — low scores, inactivity, and similar signals.<br>*Example: Flags a student whose overall average score has dropped below 50%.* |

| Module | What it does |
| --- | --- |
| **Notifications** | A running feed of portal events — such as new questions added — shown via the bell icon in the header; adding a new active question also notifies students through their own bell.<br>*Example: Shows “Kaveeshaa added a new Technical question” the moment it's created, while students see “New question added” on their side.* |
| **Audit Log** | A permanent record of every admin or staff action taken in the portal, for accountability.<br>*Example: Shows “Kaveeshaa added a new Technical question on Oct 10” as a timestamped entry.* |
